Sportster Transmission. Most Sportster engines have taken a lot of abuse, so having a pair of unmolested cases is a wonderful thing. Engine cases are the most important component of an Ironhead engine rebuild. Check Bottom End Play. After the cylinder jugs are removed, check the connecting rods for up and down play.

Ironhead Engine Build

Sportster motorcycles are powered by a four-stroke, 45° V-twin engine in which both connecting rods, of the "fork and blade" or "knife & fork" design, share a common crank pin. The original Sportster engine was the Ironhead engine, which was replaced with the Evolution engine in 1986.
