Hello, I am new here and have a little problem. I own a 2000 Passat Wagon. Every once in awhile the Emissions Workshop warning will come on. I have searched the net and these forums and found out broken hoses can be the cause. I have found and replaced two hoses that were broken. I reset the memory by disconnecting the battery for several minutes.

VWVortex.com - 2000 Passat "Emissions Workshop"

2000 Passat 1.8T, 56k miles I am surprized to see no other topics on this. I know of 3 other people with the same problem. Most of the time the car seems to work fine. 2 times I had a very hard time starting the car. The engine sounded like it was turning over but not starting (like bad spark plugs). After it started up it worked fine.
