It's easy to search Wikibooks by topic, and there are separate sections for recipes and childrens' textbooks. You can download any page as a PDF using a link provided in the left-hand menu, but unfortunately there's no support for other formats. There's also Collection Creator - a handy tool that lets you collate several pages, organize them, and export them together (again, in PDF format). It's a nice feature that enables you to customize your reading material, but it's a bit of a hassle, and is really designed for readers who want printouts. The easiest way to read Wikibooks is simply to open them in your web browser.

Kawasaki ZX-10R Ninja 2011 review By Kevin Ash - 27/08/2011. How times have changed: this is the first presentation of a Japanese superbike where the benchmark, the bike to beat, is not another Japanese superbike!. Indeed there are two European machines setting standards which Kawasaki's all new Ninja ZX-10R must measure itself against: BMW's epochal S1000RR, and Aprilia's RSV4 Factory ...
