4. Type a Name for your action and, from the Automation drop-down list, choose On course X completion, give Z points (1). 5. Choose the course you want to modify from the drop-down list (2) and type the number of points you want your users to receive upon completion (3). 6. Click Add automation to save your new action. That's it! Now you can ...

### How to set the completion points awarded for a specific course

The path that a vessel follows over the ground is called a ground track, course made good or course over the ground. For an aircraft it is simply its track. The intended track is a route. For ships and aircraft, routes are typically straight-line segments between waypoints. A navigator determines the bearing (the compass direction from the craft's current position) of the next waypoint.

### How to Be a Better Online Teacher

A point of sail is a sailing craft's direction of travel under sail in relation to the true wind direction over the surface.. The principal points of sail roughly correspond to 45° segments of a circle, starting with 0° directly into the wind. For many sailing craft 45° on either side of the wind is a no-go zone, where a sail is unable to mobilize power from the wind.
