Besides being able to read most types of ebook files, you can also use this app to get free Kindle books from the Amazon store.

Answers Isoline Lab Geography

Gradient on other types of isoline maps can be interpreted similarly. A high pressure gradient on an isobar map indicates a high pressure gradient force and strong winds, while a low pressure gradient suggests light winds. Profile refers to a cross-section, or horizontal view, of some part of the isoline map. For example, if I walked from A to B on the map, my path would look like the drawing at the bottom.
