If you're looking for out-of-print books in different languages and formats, check out this non-profit digital library. The Internet Archive is a great go-to if you want access to historical and academic books.

Ap Chemistry Activity Series Lab

The hypothesis has been proven after the experiment. The activity series were correctly found for the metals Magnesium, Zinc, Lead, and Copper and, the halogens Chlorine, Bromine, and Iodine by performing a series of reactions. This lab has almost a hundred percent accuracy since all the data found had matched the actual activity series.

An Activity Series - Judy Chen

Chemistry Lab Report (The Activity Series) This is a lab report for my General Chemistry class. The assignment was to create a formal lab report that expresses data and observations, lab

AP Chemistry Lab 3 1 Activity Series of Metals and Nonmetals

Cauvel 1 Jacob Cauvel Mrs. Shafer -AP Chemistry 9/10/09 Activity Series Lab Objective In this experiment, halogens and metals were studied to find their relative reactivities. The reactivity of the halogens were found by mixing them with a halide ion solution. The reactivity of the metals were found by mixing each with metal ions in solution.
