Breasts A Natural And Unnatural

In Western culture, at least, breasts play a curious role. Despite existing primarily for feeding babies, breasts have been sexualized and fetishized. However, in *Breasts: A Natural and Unnatural History*, the author takes a more serious look at breasts and their role in human development and how modern lifestyles may be contributing to breast cancer.

Amazon.com: Breasts: A Natural and Unnatural History ...

Breasts: A Natural and Unnatural history By Florence Williams Winner, Los Angeles Times Book Prize, 2013, Winner, Audie Award for Nonfiction (from Audible.com), 2013 Notable Book of 2012, New York Times. An engaging expose about an incredible, life-giving organ and its imperiled modern fate. Feted and fetishized, the breast is an evolutionary masterpiece.

Amazon.com: Breasts: A Natural and Unnatural History ...

Breasts: A Natural and Unnatural History is all about boobies (as one might expect from the title); including their evolution, function, and roll in culture. However, more than the above, the book is about breast illness and environmental toxins and how human exposure to new chemicals may be changing breast health and that of breast-feeding infants.

Breasts: A Natural and Unnatural History by Florence Williams

Breasts is a solid, well-researched non-fiction book focused on one (or two) organ(s). Perhaps that's too narrow a definition; Breasts is musings on the evolution of the uniquely human mammary glands (as they maintain their shapely form even without lactation), wanderings into the scary territory of implants, and even scarier territories of environmental factors, epidemiology, and the horrible ...

Breasts A Natural And Unnatural History | Download eBook ...

Breasts are our frontlines, literally. They are particularly sensitive to endocrine and hormone disruptors — chemicals that are poorly understood, poorly regulated, and nonetheless densely stored in breast tissue. It's more than yucky to let toxins from ubiquitous plastics accumulate in our breasts, it's downright dangerous.
