Capitalism And Modern Social Theory

While Giddens "Capitalism and Modern Social Theory" is a wonderful exposition on three great theorists, it is also a reiteration of sociology's conservative self-definition as the science of modernity. Even though they often call our current society "post-modern", sociologists are still caught up in the same old game.

History, Social Theory and Capitalism. The ongoing global economic crisis poses a serious challenge to our understanding of large-scale social processes and, hence, of our own historical circumstances. Global capitalist society appears to be entering a new phase, yet the social sciences seem ill equipped to elucidate the systemic dynamics of this transformation.

Monthly Review | Modern U.S. Racial Capitalism

His analysis is connected in a detailed way to problems that have traditionally preoccupied sociologists - the impact of capitalism and industrialism upon social development in the modern period. The result is a theory both of the institutional parameters of modernity and of the nature of international relations. The book is a sequel to the author's much discussed Contemporary Critique of Historical Materialism. The framework of social theory outlined in that work is here elucidated in a ...

The capitalism is a system of largely individual ownership that is open to new ideas, new firms and new owners—in short, to new capital. Capitalism's rationale to proponents and critics alike has long been recognized to be its dynamism, that is, its innovations and, more subtly, its selectiveness in innovations it tries out.
