Classe Audio CA-100 Power Amplifier Manual | HiFi Engine

At this price level and power, a pure class-A output stage is out of the question; the CA-200 runs fairly cool in class-A/B, enjoying an economical level of idle power. FET-based output stages are questionable in this size due to stability considerations and the need for extra-large heatsinking, so the CA-200 uses stable, efficient bipolar transistors.

Classé CA-200 stereo power amplifier | Stereophile.com

The first 12.5W of power output are pure Class A, and with a total of 250W per channel at its command (over 350W/Ch @ 2Ω), this compact, powerful amplifier drives loudspeakers with utmost confidence.
