Constitutional Law Rights And Structure

Constitutional law is a body of law which defines the role, powers, and structure of different entities within a state, namely, the executive, the parliament or legislature, and the judiciary; as well as the basic rights of citizens and, in federal countries such as the United States and Canada, the relationship between the central government and state, provincial, or territorial governments.

Constitutional law - Wikipedia

Constitutional law is a body of law based on a ratified constitution or similar formative charter dealing with the fundamental principles by which a government exercises its authority. These principles typically define the roles and powers of the various branches of the government and the basic rights of the people.

Constitutional Law: Definition and Function

On the other hand, a book with such a heavy emphasis on theory presumably wants to make more general claims, as suggested by the title of the English translation. 15 Alexy states that the constitutional rights of any jurisdiction will be composed of a necessary structure and one of the contingent structures of constitutional rights. 16 This means that there is a "core" of necessary ...

Constitutional law, the body of rules, doctrines, and practices that govern the operation of political communities.In modern times the most important political community has been the state.Modern constitutional law is the offspring of nationalism as well as of the idea that the state must protect certain fundamental rights of the individual. As the number of states has multiplied, so have ...

Constitutional law | Britannica

Abstract. Constitutional rights are conventionally thought to be "personal" rights. The successful constitutional litigant is thought to have a valid claim that some constitutional wrong has or would be been done "to her"; the case of "overbreadth," where a litigant prevails even though her own conduct is permissibly regulated, is thought to be unique to the First Amendment.
