spiral at the front and an “impeller” to throw the snow, which is a fan-shaped disc behind the auger. All Cub Cadet snow throwers also feature eight speeds, six forward speeds and two reverse speeds.

## **Cub Cadet Snow Blowers and Snow Throwers Guide ...**

The engines on snow throwers are set to run with a slightly rich fuel mixture. This is to prevent the engine from bogging or stalling when the snow thrower suddenly experiences a heavy load of snow. A snow thrower engine that is operating as per its new engine design standards will most likely experience this type of non-load intermittent surging.

The Cub Cadet 3x 30 HD is a heavy-duty three-stage snowblower with power steering, a steel chute, and a multitude of other features. As it is a three-stage snowblower, its snow throwing process is broken down into three parts. In the first stage, a collection auger filters through and breaks up the snow or ice before it fully enters the machine.
