introduce
undergraduate
students to digital
signal processing (DSP)
and real signals. The
authors take a
multimedia approach
that concentrates on
sound and image
signals and their
manipulation using the
methods of DSP. A CD-
ROM, which is seen as
being more important
than the text, contains
demos, labs, exercises,
homework problems

signal processing is the best starting point for the study of electrical and computer engineering. The "DSP First" approach introduces the use of mathematics as the language for thinking about engineering problems, lays the groundwork for subsequent courses, and gives students hands-on experiences with MATLAB.
