Embedded journalism was introduced by the U.S. Department of Defense during the Iraq War (2003-11) as a strategic response to criticisms about the low level of access granted to reporters during the Persian Gulf War (1990-91) and the early years of the Afghanistan War (which began in 2001).

Embedded Journalism | Britannica

Embedded journalism refers to news reporters being attached to military units involved in armed conflicts. While the term could be applied to many historical interactions between journalists and military personnel, it first came to be used in the media coverage of the 2003 invasion of Iraq. The United States military responded to pressure from the country's news media who were disappointed by the level of access granted during the 1991 Gulf War and the 2001 U.S. invasion of Afghanistan. The prac

Embedded Journalism - Wikipedia

During the 1991 Gulf War, The Nation and other media entities brought suit against the military for restricting their First Amendment access. In the so-called televised war, the media wanted more access than press pools allowed.
