Losing Battles Eudora Welty

A musical instrument is used to make musical sounds.Once humans moved from making sounds with their bodies — for example, by clapping—to using objects to create music from sounds, musical instruments were born. Primitive instruments were probably designed to emulate natural sounds, and their purpose was ritual rather than entertainment. The concept of melody and the artistic pursuit of ...

Here is just one possible example of how this can be achieved. When I train my students to improve their musical creativity, one of the things I have them do is to make lists of various emotions they want to express in a song or a guitar solo and then write down all of the musical tools (various music theory concepts) that can be used to achieve that emotion.
