Engineering Internship Survival Guide

Internships: the tricky no-man's land. They're hard to get, they're hard to prepare for and they're even tougher to complete. Science and math classes teach you the material, but they don't teach you how to get involved in a company project, how to overcome the social intricacies of an office or how to be the best engineering intern to ever breathe.

How to Survive an Engineering Internship - College Magazine

Amazon.com: internship survival guide

One of the most important lessons you can learn from your intern year is knowing who is sick vs. not sick. ALWAYS see the sick patients. If you're busy with another sick patient, ask your senior for help. Listen to the nurses when they have concerns. Remember that the nurses are with the patients for longer periods of time than we are.
