English Discussion Guide A Force

The correct options are (c) and (d). The magnetic force acts perpendicular to the direction of motion of the proton. It does not change its mass and speed but changes its direction of motion. So both velocity and momentum get changed.

What is the force acting on a charge moving along the ...

The National Use of Force Model (see below) is a situational model which may help security guards understand the appropriate level of force to use in a given situation. Based on the situation and the behaviour of the subject (black and white/inner circles), the security guard should assess the situation and determine what type of response is appropriate (coloured/outer circles).
