### Ford 9n Engine Rebuild - contradatrinitas.it

The Ford 9N is a 2WD utility tractor from the N series. This tractor was manufactured by the Ford Motor Company in Dearborn, Michigan, USA from 1936 to 1942. The Ford 9N is equipped with a 2.0 L four-cylinder gasoline engine and sliding gear transmission with 3 forward and 1 reverse gear.

### Ford 9N utility tractor: review and specs - Tractor Specs

The second worst thing you can do to any new or rebuilt engine is let it idle or run at a steady RPM. Revving the engine splashes plenty of oil up into the cylinders. You also have to get some cylinder pressure behind the new rings to drive them into the walls. Revving the engine with a load on it takes care of that.
