In 327 BC, when Alexander The Great and his army invaded India, he discovered banana crop in the Indian Valleys. After tasting this unusual fruit for the first time, he introduced this new discovery to the Western world. By 200 AD bananas had spread to China.

History of Bananas | Australian Banana Growers

A hybrid fruit, called forbidden fruit, was first documented in 1750 (along with 14 other citrus fruits including the guiney orange) by a Welshman, Rev. Griffith Hughes, who described specimens from Barbados in The Natural History of Barbados. However, Hughes's forbidden fruit may have been a plant distinct from grapefruit although still closely related to it.

It's the first discovery of fossilized peaches, and it sheds new light on the evolutionary history of the fruit, which has not been well understood. "The peach is an important part of human history, and it's important to understand how it became what it is today," said Peter Wilf , a professor of paleobotany at Penn State and co-author of the article.
