We welcome research related to human lactation and lactation in other non-dairy species, in addition to dairy species. JDR is a specialised interest Journal with a broad remit. For research at the extremities of this range, it is necessary that a clear link to more central parts of the remit can be demonstrated.

Prepare your Manuscript - journal of dairy research

Feed scarcity is a major challenge in smallholder production systems especially during the dry season. Sweet potato vines (SPV) contribute over 40% of the crop residues fed to dairy cattle but they are highly perishable resulting into losses of about 24% per season. Ensiling SPV mitigates seasonal feed shortages and assists in coping with seasonal feed price fluctuations.

Effects of Inclusion Levels of Sweet Potato Vine Silage on ...

In this Research Communication we report the measurement of total blood calcium concentration with a water hardness test kit (WHTK) in dairy cattle and compare the results to a reference method. The study was carried out on 107 Holstein Friesian cows from three commercial dairy farms in Sardinia (Italy).
