The McQuay got delayed due to 2nd opinions, quotes, whatnot.. Ive been on a Centravac all week. It's the twin chiller of the one I did last month. I'm glad to finally be done with that machine room! It's adjacent to 6 steam boilers and the ventilation stinks. Perpetual 88 degrees in that room!!!! The McQuay is gonna be fun.

McQuay WDC DUAL CENTRIFUGAL

Model WDC. Daikin dual compressor centrifugal chillers, from 600 to 2700 tons, offer excellent full and part-load performance for increased energy savings and system redundancy similar to two separate chillers, with a lower total installed cost.

Centrifugal Chiller, Dual Compressor | Daikin Applied

Magnitude chillers are equipped with one or two compressors operating in parallel with a single evaporator and single condenser. The chillers use refrigerant R-134a that operates at a positive pressure over the entire operation range, so no purge system is required. The controls are pre-wired, adjusted and tested.
