machines – an internal
view. Interacting with
an object gives us
clues about its
behavior. Looking
inside allows us to
determine how that
behavior is provided or
implemented. All Java
classes have a similar-
looking internal view.

Objects First With

Java: A Practical Introduction Using BlueJ Global Edition

BlueJ uses UML-like diagrams to represent classes and their relationships. The ease of BlueJ makes the objects-first style of object-oriented programming possible from the beginning. Easy to use, free of charge, and readily available, BlueJ enables students to manipulate objects and call methods as a first exercise.
