The core of any Satellite TV System is, of course, the Receiver (or Decoder as some refer to it). We used the Altech (UEC DSD4121RV) PVR ready version in the videos below. The Altech Receivers are designed specifically for the Optus Satellite Platform and not derived from another overseas market models.

The most important thing you should look for in a car satellite TV system is the packages that are available, including installation services and subscription fees. Be aware that the costs of installation and subscription vary from one system to the next, depending on factors like complexity of installation and the company's labor rate.
