Ok, I'm trying to get my vacuum lines figured out but I'm not really sure what "D" (intake pipe) is on the first diagram. I have the tube coming off the oil/air separator going to the Idle control valve. If anyone could post a pic on how it should be setup I'd really appreciate it, cause this diagram is just confusing me on this part.

Vacuum/Air Line Diagram - Pelican Parts Forums

It seems to me that in the 2-Y connector setup , the #2 prong (of the Y connector) as I've labeled it goes to the change over valve, the #1 to the vacuum reservoir, #3 to the check valve, # 4 to a non return valve (I've deduced where #4 goes based on the routing diagram/flowchart (not the illustration).
