Ahh! Thank you so much! I must have just not seen this in the plethora of results when I searched the Admin guide for "Component Variables" and whatever other combination I tried. I still feel like when you click on "SolarWinds Variables and Examples > Advanced Alert Engine Variables" there should be a link to all of these variables in there.

Solved: Component Variables list in latest SAM Admin guide ...

Learn more about alerts with SAM. Create new alerts to monitor your environment for SAM. Navigate to the Alert Manager to create a completely new alert definition, or duplicate an alert that is similar to the alert you want to create. Define the conditions that must exist to trigger an alert for SAM.
