The Kid Who Invented the Trampoline: and Other ...

Long before Walter Noble Burns arrived on the scene with his Saga of Billy the Kid in the 1920s, the largely fictitious events presented in Pat Garrett's book, An Authentic Life of Billy the Kid, were "remembered" as fact by countless old-timers who "knew" the Kid. Yet Garrett did not even write the book; his friend Ash Upson did.

When he was still a kid, scientists were talking about inventing a 'television'; a machine which will have sound and moving pictures. He had the idea of how to invent such a machine- he knew he had to break images into parallel lines of light, capture them, transmit them as electrons and then reassemble them for people to watch.

The Kid Who Invented the Trampoline: More Surprising ...

Eleven-year-old Frank Epperson invented what we've come to know as a popsicle. It was a winter's eve in 1905 when Frank decided to mix a frozen concoction containing soda water powder and water. He accidentally left the drink outside overnight, with the stirring stick in the glass. The mixture froze solid and the first popsicle was born.

Ten Kid Inventors Who Changed Our Lives - Inventionland

As in The Kid Who Invented the Popsicle (1997), Wulffson briefly relates the development of 50 things we take for granted, from books to graham crackers to napkins to toilet paper. In a few paragraphs or a few pages, he engagingly describes the impetus behind the creation and popularity of these items. Fun tidbits are related in sidebars, and plenty of illustrations make the book look full of ...
