Strategies For  
Children And  
Adolescents

violence remain  
inextricably  
intertwined, and much  
of the stigma  
associated with mental  
illness may be due to a  
tendency to conflate  
mental illness with the  
concept of  
dangerousness. This  
perception is further  
augmented by the  
media which  
sensationalises violent  
crimes committed by  
persons with mental  
illness, particularly

The Myth of Mental Illness and Violence

The presence of mental illness is commonly believed to be a risk factor for violence. This is simply not the case.

Research

demonstrates that the vast majority of people who are violent do not suffer from a mental illness (American Psychiatric Association, 1994).
