Volvo Penta Propellers Manual

A folding prop can increase performance by up to 1.5 knots whilst under sail. At 8 knots, for example, a 3-blade fixed propeller produces more than six times the drag of a 3-blade folding propeller. All Volvo Penta folding propellers are made of a specially developed, highly corrosion resistant nickel-aluminium-bronze alloy. The correct Volvo ...

GENUINE volvo penta propellers

Volvo Penta propellers are an engineering art form. Behind the slightest curve, smoothest contour and tightest angle is a state-of-the-art design process based on years of experience. We know propellers, but most importantly we develop the entire driveline. That's how we are able to convert power into real performance that you can feel on the ...

Genuine Propellers for optimal performance | Volvo Penta

Volvo Penta's folding propellers for sail boats combines the folding propeller's low drag under sail with reverse thrust and speed when the engine is used, fully comparable with fixed propellers. A conical toothed section ensures that the propeller blades are in the correct position.
