What Buildings Do People Call

A polling place is where voters cast their ballots in elections. The phrase polling station is also used in American English and in British English, although polling place is the building and polling station is the specific room (or part of a room) where voters cast their votes. A polling place can contain one or more polling stations. Since elections generally take place over a one- or two-day ...

Building - Simple English Wikipedia, the free encyclopedia

A house is a building that is made for people to live in. It is a "permanent" building that is meant to stay standing. It is not easily packed up and carried away like a tent, or moved like a caravan. If people live in the same house for more than a short stay, then they call it their "home". Being without a home is called homelessness. Houses come in many different shapes and sizes. They may be as small as just one room, or they may have hundreds of rooms. They also are made many different shap

Photo: Buildings have to cope with ever-changing loads from things like wind and the weight of the people inside. When architect Daniel Burnham completed his famously tall and thin Flatiron building in 1902, some people believed it would blow over in the wind. It earned the nickname Burnham's folly as a result.

How buildings work: the science of forces and static ...

The streetwall seen across from this rocky public space includes 9 buildings and over 20 businesses, many of which add to this plaza's Power of 10 | Photo by Duncan Rawlinson on Flickr. While most individual architects may not have much control over these outcomes, design ideas do have an enormous impact on our built environment. As Jane ...
