Who Are We?: Religious, Philosophical, Scientific and ...

Philosophy of religion is "the philosophical examination of the central themes and concepts involved in religious traditions". Philosophical discussions on such topics date from ancient times, and appear in the earliest known texts concerning philosophy. The field is related to many other branches of philosophy, including metaphysics, epistemology, and ethics.

Philosophy of religion - Wikipedia

Philosophy of Religion Philosophy of religion is the philosophical study of the meaning and nature of religion. It includes the analyses of religious concepts, beliefs, terms, arguments, and practices of religious adherents. The scope of much of the work done in philosophy of religion has been limited to the various theistic religions.

Philosophy of Religion | Internet Encyclopedia of Philosophy

Philosophy of religion is the philosophical examination of the themes and concepts involved in religious traditions as well as the broader philosophical task of reflecting on matters of religious significance including the nature of religion itself, alternative concepts of God or ultimate reality, and the religious significance of general features of the cosmos (e.g., the laws of nature, the emergence of consciousness) and of historical events (e.g., the 1755 Lisbon Earthquake, the Holocaust).

The following answers to the question of the self each win a random book. I am a living, breathing organism signified by the words 'human being'. I am a material or physical being fairly recognisable over time to me and to others: I am a body. Through my body, I can move, touch, see, hear, taste ...

Who Or What Am I? | Issue 84 | Philosophy Now

Philosophy (from Greek: φιλοσοφία, philosophia, 'love of wisdom') is the study of general and fundamental questions about existence, knowledge, values, reason, mind, and language. Such questions are often posed as problems to be studied or resolved. The term was probably coined by Pythagoras (c. 570 – 495 BCE). Philosophical methods include questioning, critical discussion, rational ...

The meaning of life as we perceive it is derived from philosophical and religious contemplation of, and scientific inquiries about existence, social ties, consciousness, and happiness. Many other issues are also involved, such as symbolic meaning , ontology , value , purpose , ethics , good and evil , free will , the existence of one or ...

Meaning of life - Wikipedia

A belief is separate from a religion. You can believe that there is a God, without making that your religion. However religions have sets of beliefs. This is analogous to the observation that all squares are rectangles, but not all rectangles are squares. A belief is not a religion, but all religions contain beliefs.

Who are we? Why our we here? What is our purpose?

The point of pondering the aforementioned questions and finding a satisfactory personal answer to them is to link your thoughts and opinions (and the rationale behind them), be they philosophical, religious or political, into an internally consistent framework, which helps you deal with new questions and ideas and gives you a means to overcome ...

Anthropocentrism, philosophical viewpoint arguing that human beings are the central or most significant entities in the world. This is a basic belief embedded in many Western religions and philosophies. Anthropocentrism regards humans as separate from and superior to nature and holds that human life has intrinsic value while other entities (including animals, plants, mineral resources, and so on) are resources that may justifiably be exploited for the benefit of humankind.
